DAMAGES TO PRIVATE PROPERTY AT GILLESPIE PLANT.

TREASURY DEPARTMENT,
Washington, June 2, 1919.

SIR: I have the honor to transmit herewith for the consideration of Congress copy of a communication from the Secretary of War of the 31st ultimo, submitting a supplemental estimate of appropriation, in the sum of \$1,319,033.59, required by the War Department for payment of claims for damages to private property by the explosion at the T. A. Gillespie Loading Co.'s plant in October, 1918, being in addition to the sum of \$852,106.49 provided in H. R. 3478, now pending in the Senate.

The necessity for the appropriation and the reasons for the submission of the estimate at this time are explained in the letter of the Secretary of War herewith, and in the accompanying report.

Respectfully,

CARTER GLASS, *Secretary.*

The PRESIDENT OF THE SENATE.

WAR DEPARTMENT,
Washington, May 31, 1919.

MY DEAR MR. SECRETARY: I am transmitting herewith a report, which is the final report of the board appointed to consider, ascertain, and determine amounts due on all claims for damage and loss to private property occasioned by the explosion and fires of the plant of the T. A. Gillespie Loading Co., at Morgan, N. J., October 4, 5, and 6, 1918. This final report calls for an aggregate appropriation of \$2,171,140.08, as shown in detail in the schedules A to L, inclusive. There was passed by the House of Representatives May 29, in House bill 3478, an amount of \$852,106.49, which applies on the aggregate amount above quoted. On this basis there is yet to be appropriated an amount of \$1,319,033.59, if it is desired to make appropriation for the aggregate amount covered by the report.

None of these amounts include any of the claims which were reported by this board to Congress under date of January 27, 1919, and for which an appropriation of \$268,211.26 was made by the last Congress.

Cordially, yours,

NEWTON D. BAKER,
Secretary of War.

HON. CARTER GLASS,
Secretary of the Treasury.

WAR DEPARTMENT,
OFFICE OF THE CHIEF OF ORDNANCE,
Washington, May 30, 1919.

From: The Chief of Ordnance.

To: The Secretary of War.

Subject: Report of Ordnance Board.

1. Herewith is transmitted to you the report of the Ordnance board appointed to investigate and determine the amount of loss and damage due to the owners of private property caused by the explosion and resulting fires of the T. A. Gillespie Loading Co., at Morgan, N. J., October 4, 5, and 6, 1918.

2. This report has my approval and is sent you with the recommendation that early action be taken thereon to the end that the papers be acted on by Congress for an appropriation at an early date.

C. C. WILLIAMS,
Major General, Chief of Ordnance, U. S. Army.

WAR DEPARTMENT,
OFFICE OF THE CHIEF OF ORDNANCE,
Perth Amboy, N J., May 31, 1919.

From: The Ordnance Board, Gillespie plant explosion.

To: The Chief of Ordnance, Washington, D. C.

Subject: Third supplementary report of amounts due owners of private property for losses due to the explosions and resulting fires of the T. A. Gillespie Loading Co.'s plant at Morgan, N. J., October 4, 5, and 6, 1918.

1. In accordance with the order of the Chief of Ordnance, dated November 5, 1918, which created this board and named its duties, there was transmitted January 27, 1919, a report from this board giving a transcript of the amounts claimed and the amounts payable to as many of the sufferers from this disaster as could be determined by the board up to the close of work January 24, 1919. Based upon this report an appropriation of \$268,211.26 was passed by Congress and approved February 25, 1919.

2. Supplementary to the foregoing was transmitted similarly, February 20, 1919, and February 26, 1919, subsequent reports covering transcripts of amounts claimed by other parties, and completed up to those dates. These latter were printed as House Document No. 1735, part 2 and part 3, respectively. These latter were reported favorably by the Appropriations Committee but failed of passage.

3. There is herewith submitted these latter claims, together with other claims which have since been investigated and determined. All claims which were reported in the Document No. 1735, part 2 and part 3, referred to in paragraph 2 above, are included herein. In order that the matter may be presented in complete form, all claims for which appropriation was not made by Congress have been relisted and the schedules hereto attached, include and supersede the lists embodied in House Document No. 1735, part 2 and part 3.

4. This report submits to your consideration claims for private property losses which have been investigated and determined by this board to the number and amount as follows:

Listed claims:

Number	6, 670
Reimbursement determined thereon	\$1, 156, 890. 44

These claims are listed later herein as Schedule A.

5. Reimbursement of the above is recommended by this board. These claims cover strictly private property losses, as contemplated by the legislative act creating this board, and no other character of claim is included therein.

6. There are also claims for losses to the private property of telephone and electric-light companies, which are not covered under any contract with the Post Office or other governmental administration. These have been determined by this board as amounting to \$29,435.54. These appear later herein as Schedule B.

Claims have likewise been received from certain railroads for their private corporate property. This property was not taken over by the United States Railroad Administration, although that administration controls their train operation. These claims have been determined by the board as entitled to reimbursement by the Government to the amount of \$23,911.07. They appear later herein as Schedule C.

Other claims have reached the board from railroads which have not been taken over by the United States Railroad Administration. These claims have been determined at a total amount of \$3,389.10. These are listed as Schedule D.

Total amount, \$56,735.71.

The foregoing losses shown in this paragraph are all to private property, due to the Gillespie explosion, and the board regards them properly payable under the terms of the legislative act for Gillespie relief, although their ownership is in public service corporations, and it recommends this payment of \$56,735.71.

The principal loss to the railroads was to the operated property of the Pennsylvania Railroad and the Central Railroad of New Jersey. These losses are all covered by the terms of the contract with the United States Railroad Administration and are not included in the board's report.

7. In addition to the foregoing are additional claims of a miscellaneous nature, as shown by Schedules E, F, and G herewith. These are for losses not caused by the disaster, but which resulted from the effects thereof. These are:

Losses to owners of houses and other buildings, sustained by reason of rentals and use thereof ceasing because the property was rendered uninhabitable or not usable. These losses are estimated to total \$218,000. The above are shown in Schedule E.

Payment for services of private physicians, nurses, and attendants, and for expenditures for supplies, losses of instruments due to theft and other causes, and for injury to automobiles in movement through wreckage, chiefly broken glass, strewn about streets and highways, in emergency services tendered to the injured and dying and panic-stricken. These losses are estimated to total, \$6,000. They appear as Schedule F later in this report.

Reimbursement to hospitals for services and supplies provided to the injured and dying. These are estimated at a total amount of \$50,000. They appear later as Schedule G.

Reimbursement to church societies for expenses of feeding and care of refugees, medical attention, and supplies, the installation of cots and bedding, for humanitarian purposes in a great catastrophe. These expenditures are estimated to total \$75,000. These are shown as Schedule H later.

To Mr. Thomas A. Gillespie for money advanced from his private purse as an emergency measure to provide relief for the most urgent cases of sickness and death, and repair of uninhabitable homes, and kindred work. The furnishing of this money has saved human life and much suffering during the winter season of 1918-19, and the good which this prompt advancement of his private funds has accomplished among the poverty-stricken sufferers is very great. It was expended very largely for immediate structural repairs and in so doing has lessened the amount which otherwise the Government would have to pay for structural repairs. No part of this amount is included among the awards to claimants for reimbursement which have appeared in this board's reports to Congress. The amount so to be returned to Mr. Gillespie is, as definitely determined by official papers submitted to the board, \$100,000. This appears in the following pages as Schedule I.

Total, preferential claims for which the board has no authority to determine for reimbursement, estimated at \$449,000.

8. There have been received by the board other claims for losses resulting from, but not occasioned by, the explosion and fire, such as losses due to evacuation of property by order of civil or military authority and expenses of hospital physicians and church associations and others in providing relief. These are:

Losses to homes and business houses by looting, rain, and lack of caretakers, due to the absence of the occupants who were ordered to leave their homes and remain away for some days during the period of danger, by civil and military authorities. This loss is largely due to looting and was a direct consequence of the civil and military authority in the proper exercise of their emergency functions during a season of great danger. This amount is approximately \$175,000. This item is shown as Schedule J.

This board has also received claims from insurance companies for a total of about \$300,000.

This was for amounts paid out for losses due to the disaster. The insurance companies advise that these amounts were very largely, if not entirely, paid out for losses not covered by premiums collected, and that these payments constitute a loss due to the Gillespie disaster. The board suggests that if appropriation is made for this claim that there be included in the language of that appropriation a provision limiting the reimbursement to the actual losses only. It has not been practicable for the board to determine these latter amounts, nor has it had the authority. This appears as Schedule K.

The board has also received claims from municipalities for losses to buildings which were the property of the State, or of the towns, or other civil organizations. These aggregate a total of \$33,513.93. These appear as Schedule L.

Total, \$508,513.93.

These are presented for information and for such action as may be desired.

Grand total of all claims, \$2,171,140.08.

Grand total.....		1,213,626.15	

SCHEDULE E.

Losses to owners of houses and other buildings sustained by reason of rentals and use thereof ceasing by being made uninhabitable, estimated at..... \$218,000

SCHEDULE F.

Payment to private physicians and attendants for emergency services tendered to refugees, for supplies, theft, and injury to instruments, and automobiles looted and injured in movement through the wreckage on streets and highways, this wreckage being chiefly of broken glass, estimated at..... 6,000

SCHEDULE G.

Reimbursement to hospitals for services and supplies furnished to the injured, sick, and dying, estimated at..... 50,000

SCHEDULE H.

Reimbursement to church societies for expenses of feeding refugees, medical attention, and supplies, and installation of cots and bedding, for humanitarian purposes in a great catastrophe. These expenditures are estimated to total..... 75,000

SCHEDULE I.

To Mr. Thomas A. Gillespie for money advanced from his private purse as an emergency measure to provide relief for the most urgent cases of sickness and death, and repair to uninhabitable homes and kindred work. The furnishing of this money has saved human life and much suffering during the winter season of 1918-19, and the good which this prompt advancement of his private funds has accomplished among the poverty-stricken sufferers is very great. It was expended very largely for immediate structural repairs, and in so doing has lessened the amount which otherwise the Government would have to pay for structural repairs. No part of this amount is included among the awards to claimants for reimbursement which have appeared in this board's reports to Congress. The amount so to be returned to Mr. Gillespie is as definitely determined by official papers submitted to the board..... 100,000

SCHEDULE J.

Losses to homes and business houses by looting, rain, and caretakers, due to the absence of the occupants who were ordered to leave their homes and remain away for some days during the period of danger by civil and military authorities. This loss is largely one of looting. The amount is estimated to total..... 175,000

SCHEDULE K.

The insurance companies submit claims covering amounts paid out for losses due to the Gillespie disaster and not covered by premiums collected. It is not practicable to list these in detail, as they are very voluminous. The total amount so claimed is..... 300,000

Total..... 924,000

Amount of loss estimated as shown above.
